Beefsteak Tomato—Without question the king of all tomatoes. The world’s unbeatable tomato for main crop. Ripens early and continues to fruit for a long period. Large, splendid keeper; very productive; fine color; flavor cannot be beat. What is finer than a fine tomato grown and plucked by you? Our Beefsteak seed are obtained direct from the originator, making them genuine.

Pandorosa—Of perfect shape. Very large; extra prolific; early to late. Quality fine. Color pink. Too well known to need much description.

Acme—Beautiful deep rose; solid; fine for market and family. A real main cropper.

Stone—A standard, main crop; red, medium early, a fine canner.

Buckbee’s 50-day—Mr. Buckbee, the originator, claims that good plants will produce ripe fruit in 50 days after set in the ground. Hence the name “50-Day.” If it is early tomatoes you want, try this one.

“First Of All”—Good size, red, tough skin, splendid keeper and shipper. Fruits well through the season. The originators claim this to be the earliest, largest, smoothest, finest-flavored, extra early tomato in cultivation. Color rich cardinal red, tough skin, making a good shipper, fine for market or table. Don’t fail to try this one.

Earliana—An extremely early, smooth, bright red tomato; good size and vines small but vigorous. Bears fruit in clusters.

John Baer—Earl, smooth, bright scarlet; has short, vigorous vines; has less seeds than Earliana and a little later.

Giant Everbearing—A beautiful red, wonderful yielder; ripe fruit from early summer until killed by frost; medium size; for a continuous crop this one is hard to beat. Try it and be convinced.

Cordon’s Peerless Tomato—Coreless, nearly seedless, solid meat, bright red. The originators claim this to be the best tomato ever introduced. You will be doing yourself an injustice not to try this one.

Moore’s Old Duke of York
Claimed by the originators to be blight-proof.

This is a new one on me, but Mr. Moore, the originator, made such great claims that we wanted to try it. A heavy cropper; ripens evenly to the stem, produces until killed by frost; quality the very best, solid and meaty. A fine shipper.
Bonny Best—Fruit generally borne in clusters. A good, uniform early tomato; scarlet red color.

King of the Early—A new tomato. This tomato is claimed to be the largest, smoothest, early tomato in the world—a tomato above all others. The plant is a mass of beautiful red fruit. If you want early tomatoes don’t miss this one.

Moore’s Wonderful Early—This is a new one to us but was introduced by Mr. Moore. Our seed comes direct from the originator, who claims it to be the most valuable, large second-early best flavored, bright red tomato grown; not only bears early but also late; ripens evenly to the stem. Be sure and try this one.

Dwarf Champion—The most popular of the dwarf variety in cultivation. Sturdy stocky plants, are of upright growth, need no support. Produces handsome purplish red fruits that begin to ripen early and are produced throughout the season. This variety yields an enormous crop.

Perfection—A standard early red variety. As now grown it is very similar to Chalk’s Jewel. The fruit ripens early and bears until frost.

Matchless—A very dependable, large, smooth, second early sort, makes a good canning variety; color, cardinal red.

Fine plants from 4-inch pot, 50c. This is one you will like.
